Your Comments:

The proposed cleanup of Portland Harbor (Alternative I) favors industry. A more aggressive plan is needed to prevent even more harm to human health and the environment. People rely on the river for food, recreation, employment and culture. I urge the EPA to implement Alternative F (though I actually prefer Alternative G). As a safeguard from unpredictable future events, disposal should be done off-site only.

It is important that the EPA hold polluters, and not ratepayers, accountable for creating a safer Portland Harbor.

We all deserve a clean, safe Portland Harbor.

Thanks,
